4

5

6

7

Lower Risk

Higher Risk

!

The risk indicator assumes you keep the product for 5 years.

Error during the generation of the module

We have classified this product as 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level, and poor market conditions could impact our capacity to pay you.

Error during the generation of the module

This product does not include any protection from future market performance so you could lose some or all of your investment.

Beside the risks included in the risk indicator, other risks may affect the Sub-Fund's performance. Please refer to the CPR Invest prospectus.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the Sub-Fund over the last 10 years. Markets could develop very differently in the future. The stress scenario shows what you might get back in extreme market circumstances.

What you get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

Recommended holding period : 5 years			
Investment EUR 10,000			
Scenarios		If you exit after	
		1 year	5 years
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress Scenario	What you might get back after costs	€4,620	€3,500
	Average return each year	-53.8%	-18.9%
Unfavourable Scenario	What you might get back after costs	€7,120	€9,000
	Average return each year	-28.8%	-2.1%
Moderate Scenario	What you might get back after costs	€9,900	€11,840
	Average return each year	-1.0%	3.4%
Favourable Scenario	What you might get back after costs	€13,030	€15,620
	Average return each year	30.3%	9.3%

The figures shown include all the costs of the product itself, but may or may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

In the event that the fund history is insufficient for the scenario calculation, a suitable benchmark (proxy) will be used.

Favourable scenario: this type of scenario occurred for an investment between 31/10/2016 and 29/10/2021.
Moderate scenario: this type of scenario occurred for an investment between 28/04/2017 and 29/04/2022
Unfavourable scenario: this type of scenario occurred for an investment between 31/01/2025 and 27/08/2026 .

A separate pool of assets is invested and maintained for each Sub-Fund of CPR Invest. The assets and liabilities of the Sub-Fund are segregated from those of other sub-funds as well as from those of the Management Company, and there is no cross-liability among any of them. The Sub-Fund would not be liable if the Management Company or any delegated service provider were to fail or default.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

COSTS OVER TIME

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, and how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.
We have assumed:
- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- EUR 10,000 invested.

Error during the generation of the module

Investment EUR 10,000		
Scenarios	If you exit after	
	1 year	5 years*
Total Costs	€642	€1,418
Annual Cost Impact**	6.5%	2.6%

* Recommended holding period.
** This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 6.07% before costs and 3.44% after costs.
These figures include the maximum distribution fee that the person selling you the product may charge (5.00% of amount invested / 500 EUR). This person will inform you of the actual distribution fee.
If you are invested in this product as part of an insurance contract, the costs shown do not include additional costs that you could potentially bear.

COMPOSITION OF COSTS		
One-off costs upon entry or exit		If you exit after 1 year
Entry costs	This includes distribution costs of 5.00% of amount invested. This is the most you will be charged. The person selling you the product will inform you of the actual charge.	Up to 500 EUR
Exit costs	We do not charge an exit fee for this product, but the person selling you the product may do so.	0.00 EUR
Ongoing costs taken each year		
Management fees and other administrative or operating costs	1.11% of the value of your investment per year. This percentage is based on actual costs over the last year.	105.55 EUR
Transaction costs	0.39% of the value of your investment per year. This is an estimate of the cost of buying and selling the underlying investments for the product. The actual amount depends on how much we buy and sell.	37.41 EUR
Incidental costs taken under specific conditions		
Performance fees	15.00% annual outperformance of the reference asset 100% MSCI WORLD NR Close. The calculation applies on each Net Asset Value calculation date in accordance with the terms described in the prospectus. Past underperformances over the last 5 years should be clawed back before any new accrual of performance fee.	0.00 EUR
	The actual amount will vary depending on how well your investment performs. The aggregated cost estimation above includes the average over the last 5 years.	
	The performance fee is paid even if the performance of the share over the performance observation period is negative, while remaining higher than the performance of the Reference Asset.	

How long should I hold it and can I take money out early?

Recommended holding period: 5 years is based on our assessment of the risk and reward characteristics and costs of the Sub-Fund.
This product is designed for medium-term investment; you should be prepared to stay invested for at least 5 years. You can redeem your investment at any time, or hold the investment longer.

Error during the generation of the module

To manage liquidity risks, if redemption requests exceed a predefined threshold, the management company may cap redemptions (known as "gates") and process such requests only partially, on a pro-rata basis.

To ensure an equitable allocation of portfolio adjustment costs, the management company may employ a predetermined mechanism to adjust the net asset value by applying a factor reflecting liquidity costs (known as "swing pricing").
The functioning for these mechanisms are further described in the prospectus.
You may exchange shares of the Sub-Fund for shares of other sub-funds of CPR Invest in accordance with the CPR Invest prospectus.
