What is this product?

Type: Shares of a Sub-Fund of CPR Invest, an Undertaking for Collective Investments in Transferable Securities (UCITS), established as a SICAV.
Term: This Sub-Fund matures on 31/05/2031. The Management Company may terminate the fund by liquidation or merger with another fund in accordance with legal requirements.

Objectives: The investment objective is to achieve income and capital appreciation over the recommended holding period (at least 5 years) by building a “buy and watch” diversified credit portfolio, which contributes to the European recovery and resilience.

During the placement period, the Compartment will invest only in bonds, money market instruments, money market UCITS and bank deposits.
On 31 May 2027 (i.e., twelve months following the end of the placement Period), the Compartment will be closed to further subscriptions. This Compartment has been launched on 16 March 2026 and will mature on 31 May 2031 (the "Maturity Date").

The « buy and watch » credit strategy is a low turnover strategy that invest primarily in a diversified portfolio of debt securities with the intention to hold them until their respective maturity. However, the portfolio manager closely monitors the portfolio securities and may decide to replace some of them in the event of opportunities or risk of defaults.

The Compartment is a financial product that promotes ESG characteristics pursuant to Article 8 of the Disclosure Regulation. The Compartment seeks to achieve an ESG score of its portfolio greater than that of ICE BOFA BB-B EURO HIGH YIELD CONSTRAINED INDEX.

To achieve this, the Compartment aims to select securities of companies active in economic sectors that have a direct or indirect link with Europe’s resilience and/or that contribute to Europe’s economic autonomy and development such as Food, Healthcare, Industrials, Energy, Digital, Defense… The Compartment is actively managed and is not managed in reference to a benchmark.

The Compartment is mainly invested in Euro and US dollar-denominated bonds (including green bonds) issued by public (government, supranational, local/international public bodies) and private issuers incorporated, headquartered or having their principal business activities in the European Economic Area (EEA) as well as in the UK and Switzerland. The Compartment is managed within a range of modified duration between [0; +5].

The Compartment can be invested up to 100% of its assets in securities rated “Speculative Grade” at the time of their acquisition. The Compartment can also be invested in securities rated “Investment Grade. At the launch of the strategy, under normal market circumstances, the average rating of the Compartment's portfolio is expected to be between ‘BB-’ and ‘BB+’ (as rated by S&P/Fitch).
The Compartment's investments may include, but are not limited to, subordinated bonds, senior bonds, preferred securities and perpetual bonds (within a limit of 25% of its assets for perpetual bonds). The Compartment may invest up to 70% in subordinated bonds.
The Compartment may also invest up to 20% of its assets in emerging markets, belonging to the EEA.
The Compartment may invest up to 25% of its assets in callable bonds maturing after the Maturity Date provided, they have a first call date before the Compartment’s Maturity Date.
Derivative instruments will be used for hedging, arbitrage, exposure purposes and/or efficient portfolio management.

Intended Retail Investor: This product is intended for investors, with a basic knowledge of and no or limited experience of investing in funds seeking to increase the value of their investment over the recommended holding period with the ability to bear losses up to the amount invested.

Redemption and Dealing: Shares may be sold (redeemed) as stated in the prospectus at the respective dealing price (net asset value). Further details are provided in the CPR Invest prospectus.

What are the risks and what could I get in return?

RISK INDICATOR

Lower Risk Higher Risk

The risk indicator assumes you keep the product until 31/05/2031. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movement in the markets or because we are not able to pay you.

We have classified this product as 2 out of 7, which is a low risk class. This rates the potential losses from future performance at a low level, and poor market conditions are very unlikely to impact our capacity to pay you.

Additional risks: Market liquidity risk could amplify the variation of product performances.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Beside the risks included in the risk indicator, other risks may affect the Sub-Fund's performance. Please refer to the CPR Invest prospectus.

What happens if CPR Asset Management is unable to pay out?

A separate pool of assets is invested and maintained for each Sub-Fund of CPR Invest. The assets and liabilities of the Sub-Fund are segregated from those of other sub-funds as well as from those of the Management Company, and there is no cross-liability among any of them. The Sub-Fund would not be liable if the Management Company or any delegated service provider were to fail or default.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

How long should I hold it and can I take money out early?

Recommended holding period: 5 years, which corresponds to the maturity of the product.The Sub-Fund is designed to be held until its Maturity Date; you should be prepared to stay invested until maturity. If you sell prior to the Maturity Date of the Sub-Fund an exit fee may be payable and the performance or risk of your investment may be negatively impacted. Please refer to the section 'What are the costs', for information on the costs and the impact over time if you sell prior to the Maturity Date.

Order schedule: Orders to redeem shares must be received before 02:00 PM Luxembourg time on the Valuation Day. Please refer to the CPR Invest Prospectus for further details regarding redemptions.

To manage liquidity risks, if redemption requests exceed a predefined threshold, the management company may cap redemptions (known as "gates") and process such requests only partially, on a pro-rata basis.

To ensure an equitable allocation of portfolio adjustment costs, the management company may employ a predetermined mechanism to adjust the net asset value by applying a factor reflecting liquidity costs (known as "swing pricing").
The functioning for these mechanisms are further described in the prospectus.
You may exchange shares of the Sub-Fund for shares of other sub-funds of CPR Invest in accordance with the CPR Invest prospectus.

How can I complain?

If you have any complaints, you may:
